Journal Impact Factor

The Journal Impact Factor (JIF) is a journal-level metric calculated from data indexed in the Web of Science Core Collection. It should be used with careful attention to the many factors that influence citation rates, such as the volume of publication and citations characteristics of the subject area and type of journal. The Journal Impact Factor can complement expert opinion and informed peer review. In the case of academic evaluation for tenure, it is inappropriate to use a journal-level metric as a proxy measure for individual researchers, institutions, or articles. [Learn more](#)

APOYO A LA INVESTIGACIÓN

La idea de crear esta página en el Blog de la Biblioteca de Administración de Empresas (BAE) surge como resultado de atender múltiples preguntas y ofrecer talleres a la comunidad académica durante años.

Es, por esta razón, que la BAE decidió crear un espacio permanente cuyo propósito sea ofrecer *Apoyo a la Investigación* a los profesores y estudiantes graduados de nuestro recinto. También, a todos los usuarios de nuestro Blog que lo necesiten. La misión de la BAE con esta sección es mantener el espacio actualizado cada semestre con materiales relacionados a los temas cubiertos para que siempre sean de utilidad y relevancia.

Apoyo a la Investigación consiste en 11 secciones sobre temas de investigación, publicación y divulgación de la publicación científica:

- CONTENIDO
- GESTORES BIBLIOGRÁFICOS
- ENLACES
- ESTRUCTURA DE UN ARTÍCULO DE INVESTIGACIÓN
- AUTORÍA Y COAUTORÍA
